

Dr Scott Gottlieb
Commissioner
Food and Drug Administration
10903 New Hampshire Ave
Silver Spring, MD 20993-0002

20th August 2018

Dear Dr. Gottlieb

AllTrials recently wrote to you about the launch of the FDAAA TrialsTracker, developed by the EBM Datalab at the University of Oxford. This publicly accessible website checks compliance with the results reporting requirements of the FDAAA 2007 and HHS regulations 42 CFR Part 11 (the Final Rule). It then displays all the individual trials that have breached. We said that we would write to you every week with a list of the trials that have breached their reporting requirements, and a rolling total of the fines that these trials should incur.

The tracker has been live at <https://fdaaa.trialstracker.net/> for 26 weeks. As of 12pm GMT today, 1239 trials on ClinicalTrials.gov are assessed as due to report results. 741 of those have reported results. That is a reporting rate of 59.8%. The potential fines the FDA could have collected is now estimated at \$490,085,978. 498 trials have not reported results. Those trials are listed below.

Registry ID	Completion date	Days late	Sponsor name	URL
